E: info@practiem.com

Practiem was founded by leading technology and workow executives for one simple reason... to implement technology solutions aimed at assisting physicians in providing the highest level of care in the practice environment.

We represent physicians and their staff ... period. We promise and deliver unbiased guidance and are experts in the integration of hardware and software solutions in our industry.

WHAT SETS US APART FROM OTHER CONSULTANTS?

Best Value
Represent multiple solutions
Outstanding customer service

Quality Control
Complete end-to-end service
Represent your best interests

We don't fit your practice to the solution - We find the best solution to fit your practice.

GET STARTED

We believe that the effective integration of technology with clinical and business processes is the key to a successful implementation. We analyze your practice, follow the flow of information, listen to your goals, research various solutions and present a plan of action for success.

We partner with the leading healthcare software solutions in the industry and use our research and experience to find the best possible fit for your practice. We discuss the feature/benefits and review your goals to determine an appropriate selection.

KEEP IT RUNNING

As part of our quality control, we continue to follow-up with your staff to make sure the workow is performing while making adjustments where necessary. We continue working for you in troubleshooting software, hardware or workow issues, perform periodic maintenance operations for optimal performance and monitor network and disaster recovery operations.

We don't just sell you software and walk away. We assist you through all phases of implementation of your solution and make sure it works the way you need it to work.
